

Addendum to: Drug Addiction as a Non-monotonic Process: a Multiscale Computational Model

Y.Z. Levy, D. Levy, J.S. Meyer and H.T. Siegelmann

We would like to make the following addition:

The last paragraph of *Section III* (Results) refers to Figure 4, which was mistakenly not included in the final version of the manuscript. We apologize for the inconveniences that this inaccuracy may have occasioned.

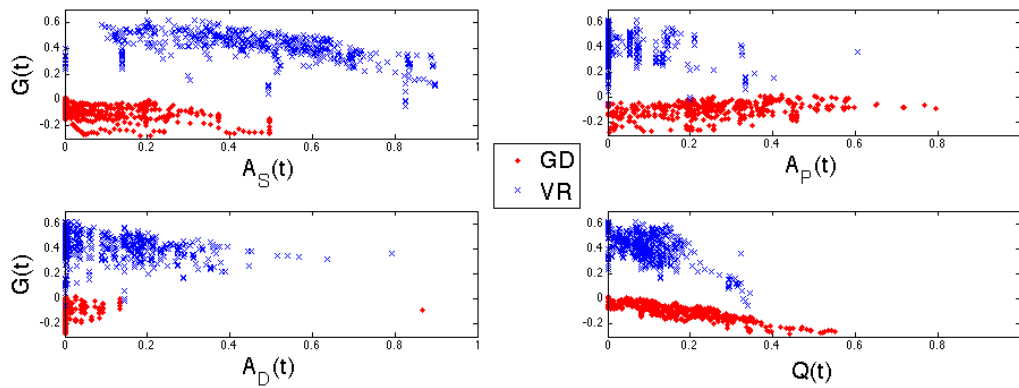

Fig. 4: The external processes $A_S(t)$, $A_P(t)$, $A_D(t)$, and $Q(t)$ plotted against $G(t)$ for GD (red dots) and VR (blue cross).
